Wow!! I think even this 10 seconds pic would take me like 30 minutes and it would probably still look like a goat doodle. I see one minute pic and I think it must be almost done. But then there comes this 10 minutes pic which looks like from the comic book...unbelievable. So quick! I admire those skills! I would love to see a video.

It would take me like an HOUR (... and probably another hour) to make the 10 minute dragon! And it would still look like a goat!
